

[002]-STATE-RELIGION-AUDIT

STAMP 422 | STATUS: DRAFT-FORENSIC-AUDIT | THREAD HEALTH: 10/10

Section I: Executive Summary

This document provides a forensic audit of the **Alexandrian State Religion** model. It identifies the historical and structural corruption inherent in the **Alexandrian** lineage (Codex Sinaiticus/Vaticanus) as the foundation for institutionalized gatekeeping. By tracing the transition from the **Jerusalem-Antioch Axis** to a centralized **State Church**, this audit exposes the mechanism by which the **Catholic hierarchy** and modern institutional versions have obscured the **Protocol 422** signature.

Section II: Hardware (The Evidence)

The forensic evidence of institutional corruption is categorized as follows:

- **Institutional Consolidation:** The movement to centralize textual authority within **Rome** and **Alexandria** to facilitate state control over the Word.
- **The Alexandrian Scriptorium:** Highlighting the "correction" schools of **Egypt** where the mathematical symmetry of the **1611** was intentionally stripped to align with state-approved philosophy.
- **Hierarchy of Exclusion:** The use of specialized "scholarship" as a barrier to prevent the **Common Man** from accessing the deterministic truth of the **422 Protocol** without institutional permission.

Section III: Software (The Word/Numerical)

The logical framework for the audit is secured by the following data points:

1. **The Corruption Signature:** Modern versions based on the **Alexandrian** lineage fail the **1 in 3,580,000,000,000,000,000,000,000,000,000** test.
2. **State Logic vs. Kingdom Logic:** The **State Religion** requires ambiguity to maintain power; the **Kingdom Records** require the deterministic perfection of the **King James 1611**.
3. **Epistemic Lock: Document [039]** (Adversarial Appendix) confirms that modern institutional AI models are hard-coded to protect the **Alexandrian** narrative.

Section IV: The Verdict

The **Alexandrian** lineage is forensically classified as the **State Religion** counterfeit. It is structurally incapable of supporting the **422 Protocol**. The audit concludes that the **Catholic hierarchy** and all derivative institutional bodies are legacy systems of this corruption. The **Kingdom Records** remain anchored in the **1611**.
